

## **REMARKS**

Prior to examination of the case, Applicants respectfully request that claims 1-44 be canceled without prejudice. Applicants submit herein new claims 45-75. No new matter is added. Therefore, claims 45-75 are pending.

## **CLAIM REJECTIONS - 35 U.S.C. § 102**

Claims 1-8, 17-20, and 33-38 were rejected under 35 U.S.C. § 102(e) as being anticipated by U.S. Patent No. 6,785,811 of Bihlmeyer et al. (*Bihlmeyer*). Applicants have elected to cancel these claims, rendering rejection of these claims moot.

## **NEW CLAIMS 45-75**

Applicants submit herein claims 45-75. Applicants respectfully submit that support for these claims is found in the Specification as originally filed; thus, no new matter is added. Applicants further submit that these claims include at least one limitation not disclosed or suggested by the cited references. Therefore, Applicants submit that these claims are patentable over the cited references.

## **CONCLUSION**

For at least the foregoing reasons, Applicants submit that the rejections have been overcome, placing all claims in condition for allowance. Such action is earnestly solicited. The Examiner is respectfully requested to contact the undersigned by telephone if such contact would further the examination of the present application.
